Small Businesses Supporting Small Businesses

Small business understand the challenges other small businesses face
- we've been there (and still are there, sometimes)!

We understand that right now, you might not have the budget or head space to hire additional staff, **yet the work needs to be done.**

So instead of locking you into a 12-month contract, we prefer hourly or daily commitments. That said, a retainer can often be advantageous for budgeting so that is definitely an option we offer, too.

Flexibility is key.

Whether you're looking to kick-start your operations, expand your business or fine-tune your processes, **let's talk!**

Kairos & Metis
Business Intelligence Services
